## *Edge One Overview*

### *Who We Are*

Edge One, Inc. is a family of companies devoted to simplifying business by integrating technology. As the Midwest's leading provider of comprehensive solutions designed to meet the evolving needs of financial institutions, retail establishments, service organizations and entertainment complexes, Edge One is committed to customizing our extensive line of products and services to meet your needs.

### *What Sets Us Apart – Our Story*

Even before Edge One was founded in 1995, we had a vision of what we would become—a diversified company offering integrated solutions to our customer partners. From our beginnings as an authorized reseller of NCR ATMs, we have added service, armored and, most recently, advanced technology solutions to our product mix. We have also expanded our ATM offerings with the Tranax line to meet the ever-growing retail market. All of our product and service programs were built from the ground up with extensive input from our customers and designed to work together as a complete package. In an age of mergers and acquisitions, it is comforting to know there is a home-grown choice that can meet all of your needs.

### *What We Do*

We offer the most comprehensive assortment of products and services in the industry, including ATM sales and service, hardware maintenance, cash-handling services, imaging solutions and leading-edge multi-application software platforms. What differentiates us is the way we bring these products and services together to provide our customers with a single source solution. Designing and building customized programs from the ground up ensures that we provide you with the best possible solution, saving you time, money and simplifying your business life.

### *What We Offer*

Our extensive line of products and services has one common element—they are the finest in the industry. We have researched and tested each and every solution, which has allowed our customers to have complete confidence in us. To support our top-notch solutions, we have hired the best people in the marketplace. But what really distinguishes us from the others is our customer-focused way of doing business, our “Whatever It Takes” philosophy. By tailoring not only our products, but also our relationship, to your needs, we guarantee that we will always provide you with the ideal solution.

## Edge One Single Source Solutions

### ATM Solutions

**ATMs, Kiosks and Supplies:** A complete line of ATMs, kiosks and supplies for the financial and retail markets. We proudly feature industry leaders NCR and Tranax brands.

**First and Second Line Maintenance:** Our comprehensive, integrated package eliminates the issue of confusion between providers and ensures optimal uptime.

**ATM Cash Replenishment and Deposit Pickup:** We take the risk (and labor costs) out of managing your ATMs cash supply and deposits.

**Transaction Processing:** For any communications platform, from dial-up to wireless IP, we offer simplified pricing, superior customer service and easy-to-understand monthly statements.

**Complete ATM Portfolio Management/Ownership Options:** Our ATM Manager program offers an a la carte menu, which enables you to outsource as much or as little of your ATM portfolio management as you like. Ownership options range from purchase to lease to shared deployment to complete ownership and operation of your ATM by Edge One.

### Armored Solutions

**ATM Services:** A full range of services for all of your ATM management needs, encompassing cash replenishment, deposit pickup and first line maintenance. One-stop shopping at its best!

**Cash-In-Transit Services:** Courier services include Federal Reserve Bank, correspondent bank and branch pickup and delivery—always performed per your requirements and schedule.

**Commercial Deposit Pickup:** Whether we are working directly with a merchant or with a sponsoring financial institution, we design a custom program that meets your schedule.

**Currency Management:** We establish and maintain optimum cash levels for your ATM portfolio, ensuring that you keep the smallest inventory possible while never running out of cash.

**Coin Processing:** Fast and accurate wrapping, sorting and delivery save you labor and storage space costs. Your customers will be delighted with our specialty services, including the latest coin offerings.

### Service Solutions

**ATM Service:** Our highly trained technicians service multiple brands of ATM's, from free-standing retail to full-function machines. Guaranteed fast response times and extended coverage options ensure optimal uptime.

**Scanners:** As a Canon authorized service provider, we keep your check and document scanners in peak running condition.

**Printers, Proof Machines, Check Encoders and Money Counters:** Are among the many types of equipment we service. Our broad range of service capabilities eliminates the confusion of dealing with multiple vendors.

**Full-Line Service Menu:** Equipment maintenance options include onsite, depot, contract and time and materials coverage. Project coordination, installation and training are among the many services we offer.

### Technology Solutions

**Check Imaging Solutions:** Leading-edge integrated hardware and software solutions, including branch capture, merchant capture and image teller. We meet all of your Check 21 requirements.

**Document Imaging and Management Systems:** Our Integrated Documents solution delivers a single point of access for all of your customers' account information. One of the most comprehensive systems on the market, it has been proven to significantly streamline both state and federal bank examinations.

**Hardware Solutions:** We are THE authorized source for Canon check transports and document scanners, TellerMate cash handling solutions, Maverick check encoders and ACOM check printing systems.

**Software Solutions:** Our revolutionary IBE software solution captures the entire client relationship in actual time in a single data base to a single screen. Its modular design enables a multi-phase custom installation to meet all of your software requirements.
